8. DISCUSSION OF ZERO-EMISSION FLEET TECHNOLOGY - (INFORMATIONAL)

General Manager Jerry Estrada advised the Board that MTD has discretionary funds to replace the final fourteen 1998 Nova buses. Fleet and Facilities Manager David Harbour presented an overview of MTD's current fleet, how MTD's fleet meets air quality standards, the future direction for reducing emissions, available propulsion options, short- and long-term vehicle replacement strategies, and constraints, challenges, and concerns. Challenges and concerns included the number of battery-electric buses limited by charging infrastructure and parking space, matching existing lines with battery range of electric buses, and long-term electricity cost and peak charging needs.

Mr. Harbour furthermore discussed the need to perform a fleet needs assessment, perform a site assessment, develop a fleet plan and vehicle replacement policy, seek possible funding and incentive opportunities, and explore all possible zero-emissions technology and options when replacing revenue and non-revenue vehicles.

The full Board thanked MR. Harbour for an excellent report and presentation.

9. QUARTERLY FINANCE UPDATE FOR THE SIX-MONTH PERIOD ENDING DECEMBER 31, 2016 (ATTACHMENTS-INFORMATIONAL)

Assistant Controller Thais Sayat presented the Quarterly Finance update for the 6-month period ending December 31, 2016. Ms. Sayat shared that the most significant recent trends remain the continued drop in fare revenue due to decreased ridership, and lower than anticipated operating costs due mainly to unfilled positions. Operating costs were also greater than last year, due to the increased service level implemented in August 2016. Total revenue during the first half of FY 2016-17 was under budget by 2%, while total outlays were less than budgeted by 7%. Relative to the prior fiscal year, operating revenues and expenses grew by 3% and 2%, respectively.

Additionally, the operating revenue rate of decline has slowed considerably. Total fare revenue was down 10% last year at this time, compared to the 4% reduction so far this fiscal year. Relative to last year, wage and benefit expenditures increased by 7%. The majority of this growth resulted from the increase in the service level to 220,000 revenue hours, and the 2% wage increase for all represented employees under the terms of the new collective bargaining agreement.

10. QUARTERLY STAFF REPORTS - (ATTACHAMENTS-INFORMATIONAL)

Planning Manager George Amoon reviewed quarterly ridership reports for the period of July 1, 2016 through December 31, 2016. Mr. Amoon reported that the recent trend of decreased ridership has not changed on average per day for the first half of the fiscal year. Ridership decreased by 10% per weekday, 12% per Saturday, and 7% per Sunday year-to-date.

Mr. Amoon stated to the board that the decrease in ridership is consistent with the majority of transit agencies statewide. As reported in recent ridership reports, the decrease in ridership is likely attributed to lower gas prices, increased vehicle registrations, decreased international student enrollment (e.g., EF -33%) and decreased SBCC enrollment (-7.1%). However, on average, there was a UCSB ridership increase of 14% per weekday for the second quarter and an increase of 14% per weekday year to date. The increase could be partially attributed to the 1,000 student enrollment increase this school year as well as the additional direct Line 28 service and more direct service between Line 23 and Line 11 which directly serves Isla Vista and UCSB.

On average, there was an SBCC ridership decrease of 23% per weekday and a decrease of 21% per weekday year to date. As previously stated, SBCC enrollment for the fall semester decreased 7.1%. The enrollment decrease probably eases the SBCC parking situation, which might reduce the incentive for students to reach campus without an automobile. Also, construction of a new building on West Campus began shortly toward the end of the second quarter of FY 2015-16, which involved closure of the West Campus bus stop served by Line 16. That line, which is now on a detour route but was not on detour during the second quarter of last year, saw an average per weekday passenger decrease for the second quarter of approximately 32%, and for year to date at approximately 25%.

11. SBCAG PLANNING AGREEMENT - (ATTACHAMENTS-ACTION MAY BE TAKEN)

Manager of Government Relations and Compliance Steve Maas requested that the Board Authorize General Manager Estrada to sign the FTA required updated "Agreement between the Santa Barbara"

County Association of Governments and the Santa Barbara Metropolitan Transit District Regarding Transit Planning, Programming, And Fund Allocation." Director Tabor moved to approve the recommendation and Director Rodriguez second the motion. The motion passed unanimously.

12. GENERAL MANAGER'S REPORT UPDATE - (INFORMATIONAL)

General Manager, Jerry Estrada reported that the new Genfare Fastfare fareboxes are on site. The kick-off meeting for the new fareboxes took place on February 1, and installation is scheduled for March. The Maintenance and Operations Departments are working diligently through the completion of the renovated bus canopy, as well as preparing for the new fareboxes.

Mr. Estrada also shared that the Marketing and Community Relations Department recently completed the design and distribution of the English and Spanish Report to the Community, and will be advertising the Downtown-Waterfront Shuttle service on the Downtown Santa Barbara map and guide that will be released in April 2017.

Director Tabor acknowledged all of staff for their great efforts to improve MTD's services.

13. OTHER BUSINESS AND COMMITTEE REPORTS - (ACTION MAY BE TAKEN)

Director Shelor reported that the Development and Marketing Committee met and elected Director McQuary as Chair. Chair Davis reported that the Downtown Waterfront Ad Hoc Committee met regarding an update in negotiations between MTD and Santa Barbara. Additionally, Chair Davis reported that the SBCAG's South Coast Subregional Planning Committee met. The meeting included discussions of potential rail service and of the exisiting VISTA Coastal Express service.

14. ADJOURNMENT

Director Tabor moved to adjourn the meeting at 10:38am. Director McQuary seconded the motion. The motion passed unanimously.

AMERICAN WITH DISABILITIES ACT: If you need special assistance to participate in this meeting, please contact the MTD Administrative Office at 963-3364 at least **48 hours in advance** of the meeting to allow time for MTD to attempt a reasonable accommodation.

REVIEWED BY: GENERAL MANAGER _____

SUBJECT: Draft Budget Revision for Fiscal Year 2016-17

RECOMMENDATION:

Staff is recommending that the Board approve the draft fiscal year 2016-17 budget revision.

DISCUSSION:

Staff has prepared and will present the attached draft FY 16-17 budget revision to the Board for its consideration. Following are highlights of the proposed changes.

Summary

The revisions include both the operating and capital budgets. The operating budget changes are mainly composed of reduced fare revenue and reductions in fringe benefit and risk costs.

- The approved operating revenue budget of \$25.5 million is being reduced by \$380,000.
- The \$25.8 million operating expense budget is decreasing by just over \$800,000.
- The net result is a projected \$125,000 surplus compared to the original \$300,000 deficit.

Operating Revenue

- Projected fare revenue is being lowered by \$450,000 based upon the assumption that
 the six month trends in cash and pass sales will continue throughout the year. It also
 includes a downward adjustment of \$60,000 to account for reduced SBCC enrollment.
- Budgeted local operating assistance has improved by \$69,000 as the result of an increase to the originally projected billable rate for UCSB Line 28 support.
- There are no revisions to significant operating subsidies including LTF sales tax revenue, federal operating assistance, and Measure A sale tax revenue.

Operating Expenses

- The health insurance budget has been adjusted downward by 8% because the growth in premiums was less than the projected 8% increase as well as unfilled positions.
- The workers' compensation budget is being reduced by \$432,000 mainly due to several long-term claims being settled this year at lesser than the reserve levels.
- There are a number of staffing changes and the effect of unfilled positions that net to a \$50,000 reduction in wages.
- Because of vacant driver positions, it is necessary to increase the unscheduled driver pay budget by \$106,000.
- The bus parts expense is being expanded by \$70,000 to account for higher repairs costs, a large part as a result of costly emissions control replacement parts.

Capital Projects

Proposed revisions to the capital budget total \$1.6 million increasing the overall figure to \$15.6 million. The change is composed of a number line items with both increases and reductions.

- The 8 BYD electric bus budget is being reduced by \$900,000 due to State HVIP credits.
- The 6 BYD shuttles to be leased have been added as a capital cost placeholder.
- The funding of 2 paratransit vans for Easy Lift at a cost of \$100,000 had been included.
- The bus refurbishing budget is reduced as planned shuttle rebuilds will not take place.
- The bus stop upgrade budget is being significantly increased to include several new stops for the Line 28 and to account for increases to A&E and construction costs.
- Four new service vehicle replacements have been added due to an accident loss and the end of the useful life of three others that are incurring high maintenance costs.

Date: February 21, 2017

Subject: General Manager's Report

Operations, Fleet & Facilities

Within the past several weeks, Operations has been very busy with our very large group of Operators in Training. We are proud to announce that Eddie Gonzalez, Aaron Schmidt, Keith Ellis, and Mariann Steinmann have successfully passed their DMV testing, and, are nearing their completion of training. These four will likely be released to assume their bid shifts sometime next week. Jonathan Guzik, another Operator in Training, will be undergoing his DMV testing later this week, and, will continue his training schedule. This week five additional Operators in Training started, Jose Espinosa, Rudy Villavicenccio, Karen Downs, Richard Caradine, and Tracy Wharton. MTD's training, generally takes approximately 6 weeks. During that time, new employees learn all facets of driving, safety, routing, policies, etc. One also has to pass the stringent California DMV testing.

The kick-off meeting for the new GFI Fastfare fareboxes took place on February 1. Several additional pre-install required items were pointed out during the site visit. Pre-install work includes upgrading the farebox vaulting system and TVM's; and setting up new servers, application software, data systems, and wireless communications. The upgrade install project will span over a three-month period, with the farebox installs scheduled to be complete by the middle of June 2017. Additional design and programming will follow to incorporate the use of SBCC and UCSB Smart Cards.

The electrical contractor has completed preliminary layout of the charger upgrade project, and has begun work on the electrical distribution room.

For the canopy project, roof demolition of the first of three sections was completed and installation of the new roof is underway. The project remains on the current schedule for completion this April.

Soil testing results of the Transit Center driveway necessitate modifications to the concrete subbase as part of the TC renovation project. Such subbase disturbance elevates the type of storm water mitigation measures to the use of permeable pavers for a portion of the driveway. Given potential durability and maintenance requirements for the paver section, MTD's civil engineer is reviewing the design options to determine if there is an alternative that would alleviate the need to use the pavers. Resolution of this matter has delayed submission of the revised construction documents to the City for a second review.

Planning & Administration

UCSB will be conducting their annual Transportation Survey of all students, faculty and staff. UCSB staff coordinated with Planning staff on transit related questions. 2016 SBCC Spring semester enrollment has decreased by 1,218 students or 7.4% compared to last Spring. As a result, a decrease in SBCC ridership throughout the semester is anticipated as was experienced the prior school year when there was a decrease of 1,104 students or 6.3% compared to Spring 2015.

MTD is working with City of Santa Barbara staff to install a bus pass ticket vending machine (TVM) at the Library on the Eastside. The installation will bring the number of TVM's up to five including two at the Transit Center, one at the Goleta Valley Community Center, and one at Albertson's in Carpinteria. The City of Santa Barbara has provided a draft contract for the TVM installation, which is under review by legal counsel.

Staff attended a Caltrans cap-and-trade Low Carbon Transit Operations Program (LCTOP) workshop on February 8. The LCTOP application for FY 2017 funds has been significantly revised from previous years, and the workshop was very useful to explain the changes. Staff also attended a meeting of county transit operators organized by SBCAG on February 15 to determine the recommended allocation of the FY 2017 LCTOP funds that flow through SBCAG. The current cap-and-trade legislation requires that a minimum of 50% of the SBCAG funds be allocated to one or more projects that benefit the "Disadvantaged Community" in Santa Maria. Following a discussion, the group agreed to recommend that the SBCAG Board allocate the remaining 50% of the funds to the South Coast, with 5% (\$9,851) to Traffic Solutions and 45% (\$88,657) to MTD. The SBCAG Board will be asked to consider the recommendation at their March 16 meeting. Assuming the SBCAG Board approves the recommendation, MTD will have a total of \$144,690 in LCTOP funds available (the SBCAG allocation plus a direct allocation of \$56,033). Applications for LCTOP projects are due to Caltrans by March 30.

Staff developed initial 2017 performance targets for Transit Asset Management (TAM), as required by the Federal Transit Administration (FTA). MTD will need to complete a TAM Plan no later than October 1, 2018.

In August 2016, MTD became an Employer Member with Coastal Housing Partnership, a non-profit organization dedicated to serving the community by assisting local employees with their home buying needs. Through MTD's membership, all MTD employees are now eligible to participate in Coastal Housing Partnership's program to receive generous savings and benefits when purchasing a home, refinancing a mortgage or renting an apartment. Human Resources is pleased to announce that several MTD employees took advantage of this benefit in the 5-month period through December 31, 2016. Two employees purchased a home and saved an average of \$4,000 each through the Home Purchase Benefit, two others utilized the Mortgage Refinance Benefit, and one received Rental Assistance. MTD employees also attended Home Buying Seminars. There is no charge for employees of member companies to attend the seminars, which provide education about the home buying process so that lack of information is not a barrier to home ownership. Total savings realized for all employees who used these services was approximately \$10,000.

Staff participated in two recent Cottage Hospital Employee Benefits Fairs, sharing information with Cottage workers on their transit benefit and which buses to ride to and from work. We have six schools already signed up this year for a 6th grade assembly presentation on how to ride the bus. Marketing and Community Relations Manager Hillary Blackerby will be attending the upcoming American Public Transportation Association's Marketing and Communications Workshop.
