

Santa Barbara Metropolitan Transit District
Request for Qualifications for On-Call Architectural & Engineering Services
Addendum Number 2 – Issued November 6, 2025

The Santa Barbara Metropolitan Transit District (MTD) herewith issues this Addendum No. 2 to its Request for Qualifications (RFQ) for On-Call Architectural and Engineering (A&E) Services (issued on October 16, 2025). This addendum provides further clarification to the RFQ submittal requirements. Except as modified by this addendum, all other terms and conditions of the RFQ remain unchanged.

The RFQ submittal deadline remains November 13, 2025, by 3:00 PM.

Clarification on Work Samples & References:

The Forms & Certifications section requires the References & Subcontractors form to be included in Envelope #1 and asks Offerors to submit three (3) references where the A&E project is similar to MTD's scope of services, including at least one public agency. Ideally, include those from the provided work samples.

The Solicitation Instructions section on preparing the Statement of Qualifications to be included in Envelope #2 asks Offerors to include three (3) sample projects, similar to the work described in the Scope of Services.

- MTD is interested in a technical description or summary of the work samples. Offerors may choose to describe the project's status, who worked on it, the type of client, its effectiveness, key highlights, milestones, or challenges during the build or repair. Consider including photos and/or reduced-size drawings. Please do not include blueprints, very large physical drawings, or other mock-ups.
